Trainer & OSHA Safety Courses

Law Enforcement • Fire/Rescue • EMS • First Responders • Healthcare • Industry

OSHA

Safety and OSHA requirements affect nearly every organization. Workers who can be exposed to infectious materials or harmful substances must receive up-to-date and effective training from qualified instructors. Safety Priority can help train and qualify your agency's in-house instructors.

Seminar Host	Bloodborne Pathogens Train the Trainer	TB & Airborne Pathogens Train the Trainer	QLFT Respirator Fit-Tester
Wolcott Vol. Ambulance Assn. Wolcott, CT			Sat., Jan. 23, 2027 0800-1130
West Stafford FD West Stafford, CT	Sat., May 15, 2027 0830-1200	Sat., May 15, 2027 1300-1630

Each Train the Trainer course includes:

- In-depth preparation to teach the topic according to the latest OSHA requirements.
- Bloodborne topic areas include OSHA regulations, CDC/NIOSH/NFPA recommendations, liability, Ryan White Act, drug-resistant organisms, post-exposure protocols, recordkeeping, training techniques, and more.
- TB & Airborne Pathogens topic areas include MDR-TB, XDR-TB, influenza, pandemic flu, respiratory protection, CDC hazard assessment protocol, skin testing, COVID-19, and more.
- A Trainer's Kit with scripted presenter's notes keyed to PowerPoint™ program, handout masters, certificate master, training record forms, exposure report forms, and more in a 3-ring binder.
- The latest statistics – national, state, county, and town.
- Certificate of Completion recognizing your professional accomplishment.

QLFT Respirator Fit Tester course includes:

- Knowledge and skills to perform qualitative fit tests (QLFT) per OSHA 1910.134 standard and policies. (Not for SCBA or full-face negative pressure respirator). Handouts, standard, forms, more. Practice fit testing. *Each trainee must show medical clearance to wear a N95/N100 respirator, and be clean shaven where respirator contacts the face.
